

RING SIZING GUIDE

FINDING THE RIGHT SIZE

The best way to find your ring size is to visit us for a free consult. However, with this document it is also possible to find your (or her!) ring size from home. Print this document and place a well-fitting ring on the circles. You've found the right size when the inner edge of the ring aligns with the outer edge of the circle. If you're doubting between two sizes, opt for the bigger one.

To get good results, please make sure you print this document on actual size. In the printer settings, set 'page scaling' to 'none'. To check if this document was printed correctly, use a ruler to check the sample above. This should be exactly 5 cm or 2 inch. If measurement is not accurate, the ring size won't be right.
